

CUSTOM DECORATIVE LIGHTING · ZHONGSHAN, CHINA

Light, shaped for remarkable spaces.

Design development, material craft and project production from first reference to export-ready delivery.

COMPANY PROFILE

Design-led lighting, backed by manufacturing.

Founded in 2012 in Zhongshan, Meiyun develops custom decorative lighting for hospitality, residential and commercial interiors. Designers, engineers, craftspeople and export specialists work as one team to turn references and drawings into production-ready fixtures.

2012

FOUNDED IN ZHONGSHAN

100+

MARKETS SERVED

4,000+ m²

MANUFACTURING BASE

A creative partner with a factory behind it.

01

Develop

Drawings, proportions, structure, light source and installation are reviewed before production.

02

Craft

Handmade glass, metalwork and surface finishing are sampled to establish the material expression.

03

Deliver

Assembly, testing, QC records, labelled components and export packing support overseas delivery.

CUSTOM PROJECT WORKFLOW

One clear path, four considered steps.

-
- | | | |
|----|--------------|---|
| 01 | BRIEF | Share drawings, room dimensions, quantity, finish, market and timing. |
|----|--------------|---|
-
- | | | |
|----|----------------|---|
| 02 | DEVELOP | Review structure, material, lighting effect, compliance and installation. |
|----|----------------|---|
-
- | | | |
|----|----------------|--|
| 03 | APPROVE | Confirm quotation, shop drawing, finish sample or prototype. |
|----|----------------|--|
-
- | | | |
|----|----------------|---|
| 04 | DELIVER | Complete production QC, packing records and shipping documents. |
|----|----------------|---|
-
- 

Glass catches light. Metal shapes it.

HANDMADE GLASS

Colour, texture and natural variation confirmed by sample.

COMPOSED ELEMENTS

Individual pieces arranged into project-scale installations.

WARM DIFFUSION

Stone, opal glass and diffusers selected for atmosphere.

METAL & FINISH

Brass, bronze, black, chrome and custom finish coordination.

Start with a line. Build the custom version.

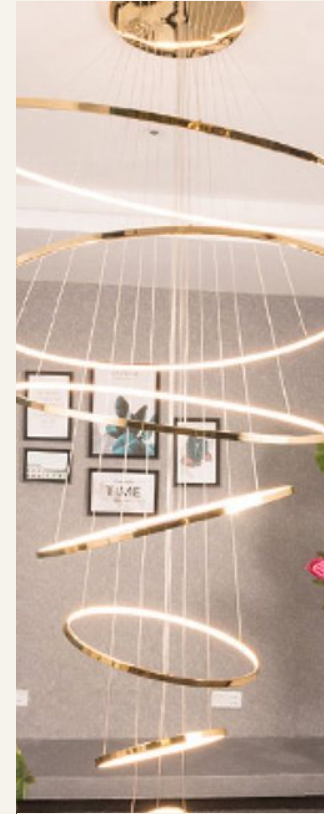

LED COMPOSITIONS

CRYSTAL CHANDELIERS

GLASS PENDANTS

STAIRCASE LIGHTING

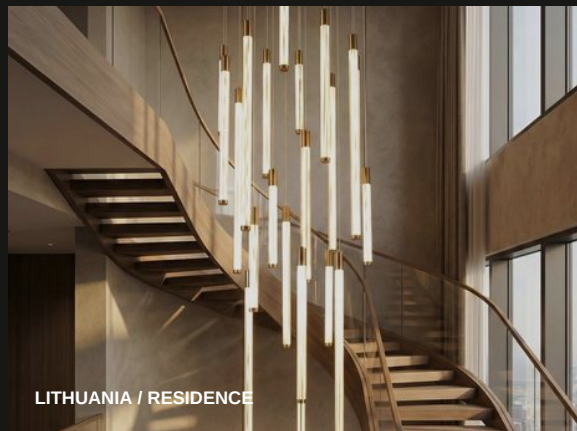

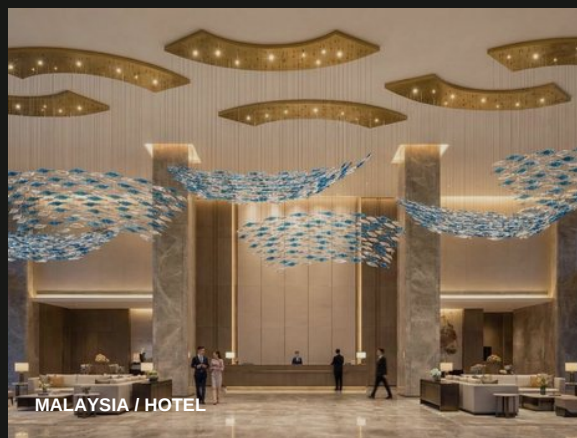

DECORATIVE LAMPS

Customise scale, finish, structure, light source, suspension, dimming, packing and destination-market electrical configuration.

SELECTED GLOBAL WORK

Made for its place.

Scale, material, installation and export delivery are developed around the architecture of each project.

QUALITY AND COMPLIANCE

Approval before production. Evidence before delivery.

DRAWING REVIEW

Structure, dimensions, mounting and service access reviewed before manufacture.

MATERIAL CONFIRMATION

Finish, glass and key decorative materials confirmed by sample or reference.

PRODUCTION QC

Assembly, electrical function, appearance and packing checked before dispatch.

MARKET SUPPORT

CE, RoHS and destination-market certification coordination available by project.

The practical information, early.

01 PROJECT INPUT

Room dimensions, reference image, quantity, finish, market and target date.

02 QUOTATION

Scope, specification, commercial terms and estimated lead time.

03 APPROVAL

Shop drawing plus finish sample or prototype when required.

04 PRODUCTION

Typical production 30–45 days after approvals; confirmed per order.

05 PACKING

Export carton or custom plywood crate with labelled components.

06 SITE SUPPORT

Installation drawing, numbered schedule and remote technical coordination.

BEGIN A PROJECT

Let's shape the light around your space.

Send a drawing, room photo, reference image or product direction. Our project team normally replies within one business day.
